

Project Initialization and Planning Phase

Date	26 June 2026
Team ID	xxxxxxx
Project Name	Voice-Based Concept Understanding Analyser
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A technical student preparing for placements and viva-voce exams	Practice speaking and explain technical core concepts clearly	I don't get immediate, objective feedback on my speech structure.	Manual evaluation is slow and there are no tools to track filler words	Anxious and unsure about my actual interview performance
PS-2	A professor handling large engineering batches	Fairly assess oral understanding and fluency for all students.	It is exhausting to manually listen to hundreds of student audio files	No automated dashboard exists to transcribe and score technical speech.	Overwhelmed by grading and worried about manual scoring bias
PS-3	A college placement coordinator	Identify and help students with weak interview communication	I cannot manually conduct weekly mock interviews for hundreds of students.	Existing platforms only test coding and ignore spoken evaluation	Stressed about placement rates due to communication gaps
