Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the web application. • Selects the technical topic. • Clicks on the 'Start Recording' button.	• Speaks out loud to explain the technical concept. • Pauses or stops the recording when finished.	• Reviews the calculated fluency score. • Checks the identified technical gaps. • Downloads the evaluation report.
Touchpoint <i>What part of the service do they interact with?</i>	• Streamlit UI Dashboard • Topic dropdown selection menu. • Audio recorder input button.	• Microphone interface audio capture layer. • Real-time wave animation display.	• AI Analytics Dashboard display. • PDF Report download link button.
Customer Thought <i>What is the customer thinking?</i>	• Is the application interface easy to navigate? • Will it understand my accent correctly?	• Am I using too many filler words like um or uh? • Is the system actively capturing everything?	• Are these AI-generated scores truly accurate? • How can I fix the specific conceptual gaps shown?

Customer Feeling <i>What is the customer feeling?</i>	Curious, Hopeful	Nervous, Focused	Relieved, Motivated
Process Ownership <i>Who is in the lead on this?</i>	User / Frontend Interface	Audio System / GenAI Backend	Analysis Engine / Database System
Opportunities <i>How can we improve this stage?</i>	• Add a user authentication login layer. • Provide a library of preset text prompt templates.	• Integrate multi-lingual or regional accent tuning. • Add real-time visual alerts for excessive filler words.	• Build a persistent user progress tracking graph. • Enable direct email sharing of generated evaluation reports.
