

Project Demo Planning

Date	3 July 2026
Team ID	XXXXXX
Project Name	Voice based concept understanding analyser
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the limitations of manual student grading and oral assessment overhead.	2	Member 1
2	Project Overview & Architecture	Present the three-tier system architecture, SQLite integration, and audio analysis workflow.	2	Member 1
3	AI Caption Generation Demo	Demonstrate real-time audio file upload, transcription, WPM pacing computation, and waveform generation.	3	Member 1
4	Hashtag & CTA Generation Demo	Show Gemini 2.5-flash evaluation insights, JSON parsing for filler word counts, and direct PDF report downloads.	2	Member 1
5	Technical Implementation	Explain FastAPI backend endpoints, Python speech/audio libraries, and strict prompt engineering.	2	Member 1
6	Results, Future Scope & Conclusion	Present data logging outcomes, platform scalability plans, and final project conclusions.	2	Member 1

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Present data logging outcomes, platform scalability plans, and final project conclusions.
2	Solution Overview	Describe the application's architecture, processing layers, and Python technology stack
3	Live Feature Demonstration	Upload an audio file to extract metrics, run Gemini analysis, and download the compiled evaluation PDF in real time.

4	Q&A Session	Answer evaluator questions regarding database logging accuracy, AI scoring thresholds, and future upgrades.
